

Jane's Way

SOBER LIVING

WHO WE ARE

Jane's Way was founded in 2014 to provide structured sober living options to those in early recovery. It is our mission to provide a solid support system for those recovering from alcohol and drug addiction.

We focus on ensuring our clients have a safe home living environment that supports a productive, independent and drug free lifestyle. We believe a strong and sober peer support group is vital to long term recovery and promotes the concept of community in our homes.

WHY WE'RE DIFFERENT

Jane's Way recognizes that recovery from addiction requires a strong foundation and support system. We assist our clients in developing the life skills needed to maintain an independent, productive and sober lifestyle. We require our clients attend 12-step meetings, obtain and maintain full time employment, and participate in all household responsibilities.

We believe structure is vital to long term success and aid our clients in creating accountability in early recovery. We show our clients how to create balance in their own lives so they can easily transition to truly independent living based on a strong sense of self-discipline and personal accountability.

WHAT WE OFFER
